8. DISCUSSION

8.1 "Re-use for Good" updates
- Expansion of GoGreen container program, reusable cutlery and waste bins;

8.2 Update on the Accessibility Fund
- The current balance is $400,680.
- Expenses this year have been $401 ($169 for earplugs and $232 for stim toys).
• Expenses for the past few years are:
  o 2017 – $6,235
  o 2018 – $4,646
  o 2019 – $1,600
• We have a healthy fund right now;
  o There will be spending for making Forum Chambers and Undergrounds more available.

*Serena Bains came in at 10:42 AM*

8.3 Promotion of the Accessibility Fund
• Poster will be put out to promoting the Accessibility Fund.

8.4 Psychoeducational Assessments
• There are four options for assessing the learning disability:
  1) Collaboration with other institutes
  2) Reimbursement
  3) Hiring an internal psychologists
  4) Partnering with Student Care
     ▪ This would add $1-2 to the tuition for Student Care
     ▪ A referendum would be necessary
  • SFU cannot assess their own students because of a conflict of interest.

8.5 Updates on application form
• The work is in progress.

8.6 Establishing a task meeting
• This would be a not-minuted meeting,
  o Takes place at the regular AFAC meetings time when the AFAC meeting is not taking place.

8.7 Progress on new grant processes/vendor lists
• No new updates yet, because the application form needs to be finished first.

8.8 External Grants
• It is possible for someone from outside of SFSS to apply for a grant, but a separate form would have to be worked out.
• The person would still have to be a SFU student.

8.9 Reimbursement process
• The Accessibility Fund is going through staff, reimbursements take a long time, there’s nothing that can be done at the moment.

8.10 Accessibility staff worker
• It is proposed that once we have moved in the SUB, SFSS could to hire a project worker on a short-term position who would work on the grant.

BRIEFING NOTE

INCREASE TO ACCESSIBILITY FUND CONTRIBUTION FOR SECOND PASSENGER ELEVATOR IN THE STUDENT UNION BUILDING

ISSUE
In 2014 the Accessibility Fund Advisory Committee approved up to $200,000 from the Accessibility Fund to pay for a second passenger elevator in the student union building (SUB). Subsequently, in 2015 the committee approved up to $22,000 for emergency call buttons in accessible washrooms and photoluminescent paint for handrails in the SUB.

The actual cost of the passenger elevators has since been determined to be $263,500 for each elevator which is higher than the original cost estimates. Therefore, this is a request for an increase to the contribution from the Accessibility Fund to fully fund the second passenger elevator in the SUB.

BACKGROUND
The purpose of the 2014 contribution from the Accessibility Fund was to increase the number of passenger elevators in the SUB from one to two, thereby increasing the building’s physical accessibility. At the time, a Quantity Surveyor (cost consultant) had estimated the cost of all elements of the SUB construction. Their estimate for the cost of the passenger elevators was approximately $200,000 each.

CURRENT STATUS
Construction of the SUB is nearing completion. The overall SUB construction is currently within budget. An additional contribution of $67,848 from the Accessibility Fund would fully fund the second passenger elevator and help keep the SUB construction within budget.

KEY CONSIDERATIONS
1. The Accessibility Fund collects approximately $47,000 annually and has a current balance of approximately $400,000.
2. The additional contribution from the Accessibility Fund would be $67,848.00 including tax.

RECOMMENDATION
That the Accessibility Fund Committee approve $67,848 from the Accessibility Fund to fully fund the second passenger elevator in the student union building.
Proposed Accessibility Fund Committee motion:

**Student Union Building Second Elevator**

Whereas in 2014 the Accessibility Fund Advisory Committee approved up to $200,000 from the Accessibility Fund to be spent on a second passenger elevator for the student union building;

Whereas the actual cost of the student union building’s passenger elevators is higher than originally estimated and it is desirable for the Accessibility Fund to fully fund the second passenger elevator at a total cost of $267,848, including tax;

Be it resolved that in addition to the $200,000 previously approved through MOTION AFAC 2014-07-30:03, the Accessibility Fund Committee approve an additional $67,848 from the Accessibility Fund for the second passenger elevator in the student union building.
Learning Disability Assessments Pilot Project

General Information:
- In the past, students would use their provincial exam tests for assessments, now that the Provincial exams are no longer in effect, there is no exams for them to use

Put at a cost for people with a disability:
- The cost of a disability assessment varies depending on the condition. There are possible additions depending on the condition that is diagnosed
- There are different forms for the different conditions
  - Nominal costs to have these forms filled out are around $70. These booklets are more precise, but some can’t afford them
- The standard procedure for someone going through this process would be to:
  - Go to the doctor
  - Give existing documentation
  - Filling out specialty forms that cost more money (targets the disability directly)
  - Only targets ongoing impairments
- Most other conditions don’t need cost (other than LD)

Option A: Partnership with another institution (UBC)
- At the UBC PRTC
- Can’t do this at SFU for SFU students because they’re in the same institution
- UBC wasn’t interested initially about this collaboration

Price:
- Average price at the lower end: ~$1,700
  - With a considerable waitlist (~3-6 months)
  - Private Clinic: $2,300-$2,700
  - Not likely pro bono work will be available

Option B: Reimbursement
Available funds:
- If student loan eligible (non international). Could have funding
- If they come back with a learning disability, can submit form for reimbursement of 2/3 of the price
- Funding available to top of students who can’t afford the rest of reimbursement

Option C: Neuro or Clinical Psychologist (UVIC Model)
- Having a staff psychologist that could do assessments for a cheaper cost structure
- The psychologist will have regular clients
• Possibly someone attached to SFU who can work in partnership (be careful about this financially)
• Up to us where to allocate funds

**Option D: Health and Dental Plan Coverage (Mitch is most in favour of this idea)**
• Negotiate with Student Care
• Add a little bit of money for the health and dental plan (~$1-2)
• All students contribute a small amount
• All assessments paid for

**Collaboration with the CAL?**
• As long there is no Conflict of Interest, More than welcome to work with us
• Completely open to working out solutions
• Help with picking contract worker

**Next Steps**
• Reach out to UVIC. What worked? What didn’t? Ask about contracts. Reach out to Centre for Access. Ask about insurance possibility
• Reach out to UBC Access center. AMS?
• Wait to reach out before reaching out to autism lab.

3. Accessibility Grant Request Details

3.1 Please describe how the even poses an accessibility challenge for students with disabilities.

Presentations for students that are hearing impaired or have difficulties keeping up with the speed of a presentation can be challenging. CART captioning allows real-time captions of what is being said. CART not only benefits students with disabilities, but all students that can follow along with the captions to ensure they can hear what is being said.
