Call to Order - 10:20AM

2. TERRITORIALACKNOWLEDGMENT

We respectfully acknowledge that the SFSS is located on the traditional, unceded territories of the Coast Salish peoples, including the x^wməθk^wəyəm (Musqueam), Skwxwú7mesh Úxwumixw (Squamish), Selílwitulh (Tsleil-Waututh), k^wik^wəλəm (Kwikwetlem) and qicəy (Katzie) Nations. Unceded means that these territories have never been handed over, sold, or given up by these nations, and we are currently situated on occupied territories.

6. NEW BUSINESS

6.1 Investment Policy Implementation Plan-MOTION FASC 2020-11-25:03 Harry/Jennifer

Whereas the committee has reviewed and discussed multiple options for implementing our investment policy as laid out in the "Investment Policy Implementation Plan"

Whereas the plan recommends a timeline of phased financial contributions to the investment policy and amounts

Whereas the plan recommends Option 3, where we only collect interest gained above annual inflation, for Society use

Be it resolved that FASC recommend to the Board of Directors the plan along with the recommendation to accept Option 3.

CARRIED UNANIMOUSLY

- VP Finance reviewed the updated proposal.
 - See fee breakdown as attached.
 - Includes total administrative costs.
 - o It works like marginal tax, but the fees decrease with higher amounts.
 - Will be updated before it goes to Board.
- Percentage of portfolio with fees averaged at 0.07%.
 - O Actual market fees could be slightly different for rate of return, as it's market dependent, though ²/₃ will be in bonds and stable investments.

7. DISCUSSION ITEMS

7.1 Updated 2020-2021 Budget

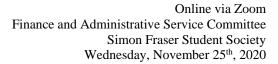

- VP Finance presented current SFSS budget.
 - o FIC took a 20% hit in lowered enrollment which results in less membership fees.
 - Many departments and line items have lowered spending.
 - o Legal fees are very cost effective with current lawyer.
 - o Student Union grants have only spent \$36,000.
 - o Club grants have only spent \$20,000.
 - o Bigger breakdown in tabs in the document.
 - We have a lot more revenue and are projecting a bit of a surplus that will be a bit higher than \$150,000 due to pandemic restrictions.
 - o SFSS should not necessarily finish the year with a massive surplus.
 - We're at 6 months mark and VP Finance can provide a January or February update.

7.2 Emergency Funding Fall and Spring Terms

- Because there is a surplus projected, the idea is to provide funding relief in two batches, Fall and Spring semester, on review, depending on 'in person' impacts of funding.
- In Feb 2021, another review could help determine a second round of funding.
- Some Events spending may not yet be reflected or billed yet, which is why 80% is being recommended.
- Total amounts on average about \$200,000 per disbursements.
- Let VP Finance know if there is anything that needs to be adjusted in the line items based on projected needs.

Briefing Note - Fall and Spring Emergency Funding Options

Author: VP Finance Corbett Gildersleve

ISSUE

Due to the pandemic impacting the number and cost of events, initiatives, and programs we support, we have additional unspent funds that could be used in another COVID-19 emergency fund for both this fall term and the spring term.

BACKGROUND

The 2019-2020 Board contributed \$150,000 to SFU's Emergency COVID-19 Fund in the spring semester to support domestic and international students under a 50/50 split. These funds were used to support technology purchases, plane tickets home, and other things to help adapt to remote learning in the summer. An additional \$60,000 was provided to FIC students.

| Total | | 510,095.00 | 204,038.00 | 204,038.00 | 102,019.00 |

KEY CONSIDERATIONS

- 1. Finalize the amount to give
- 2. Criteria for distributing to students
- 3. How much of the funds goes towards domestic and international students
- 4. Any additional funds to support FIC students
- 5. How much per student

MEDIA AND COMMUNICATION

We will have to contact SFU about distribution of the funds. We will need to task our communications department with developing messaging for our communication channels (email, website, social media, etc.)

TIMELINE

- 1. Board approves the funding and criteria
- 2. VP Finance contacts SFU Financial Aid and Awards to set up the disbursement
- 3. Communications department develops messaging and coordinates with SFU Financial Aid and Awards to coordinate communication pushes
- 4. Funds are transferred to SFU
- 5. Students are made aware of the funding opportunity
- 6. SFU distributes the funds and reports back

OPTIONS/RECOMMENDATIONS

I recommend that the Board approve a fall disbursement of funds to support students in financial need of \$200,000. We can revisit in the middle of the spring term to see if program spending has increased. If not, then we can disburse another round of funding then.

Criteria Options:

Amount:

Option 1: We provide \$200/student, allowing us to support up to 1000 students per semester Option 2: We provide \$500/student, allowing us to support up to 400 students per semester Option 3: We provide \$1000/student, allowing us to support up to 200 students per semester

Breakdown:

Option 1: We do an equal 50/50 split between domestic and international students like the 2019-2020 Board did

Option 2: We do a 40/60 split between domestic and international students because of the increased government funding options in the fall for domestic students (grants, CESB, etc.)

I recommend we provide \$500/student with a 40%/60% split for domestic and international students, as it will have a greater impact but still help 400 hundred students per semester.

RECOMMENDED MOTION(S)

Whereas the SFSS has updated their 2020-2021 annual budget

Whereas we are predicting a surplus that could be used towards supporting students in financial need

Be it resolved that the Board approve a Fall semester Emergency COVID-19 Funding of \$200,000 from line items selected by the VP Finance

Be it further resolved that the criteria for the funding be \$500 per student and a 40%/60% split between domestic and international students.

Be it further resolved that the President and VP Finance work with relevant SFU and SFSS departments to communicate and distribute this funding.

BRIEFING NOTE - INVESTMENT POLICY IMPLEMENTATION PLAN

Authors: VP Finance Corbett Gildersleve, Applied Science Rep Harry Preet Singh

ISSUE

April 1st, 2020, the Board approved an Investment Policy and assigned Vancity Investment Manager (VCIM) to handle the investments, however we have not yet decided on how much SFSS funds should be invested and in what manner we will benefit from the investment

BACKGROUND

SFSS receives interest on its bank accounts housed with Scotiabank. FY20 earned \$282,106 across six separate funds. Additionally, the SFSS has also built up a sizable surplus in multiple areas of the SFSS, both in restricted and unrestricted funds.

The 2019-2020 Board wished to try and invest some of these funds into more ethical ways, especially around fossil fuels. A Request for Proposals (RFP) process was followed in 2019-2020 and VCIM was selected as the manager.

VCIM does not directly invest in fossil fuels, and will not invest in companies that earn more than 5% of their revenue from fossil fuels investment.

PROPOSED MODEL (VCIM)

| | | | | |
| | | | | |
| Total | 100 | \$5,000,000.00 | \$137,541.50 | 2.75% |

KEY CONSIDERATIONS

- We're in the middle of a pandemic of unknown length
 - Students are struggling financially
 - Investing multiple millions of dollars would come off as callous or indifferent to their struggle
- Society funds are already earning interest sitting in the bank accounts in Scotia bank, which we have no control over what they invest in
- Interest earned over the last few years has been between 1%-2%, under VCIM they're predicting around a 2%-3% return with low risk
- Interest gained sometimes goes back to their source fund and sometimes it goes into the General Fund, which has caused confusion around the value of specific funds
 - We should either have a consistent policy around where interest goes for each fund.
- Any investment funds are not locked in, if in future the board decides to pull back after a negative outcome, they can always do so and VCIM will have to adjust.
- Initial analysis of the risk factor of these investments is expected if this plan is approved.
 - As mentioned in the proposal, the policy might take a different shape in future if the current model doesn't satisfy the expectations.
 - Hence, the board would have to look on the impact the investments do in the long term rather than in a short term
 - FASC will be responsible for reviewing the performance of VCIM on an annual basis and will provide recommendations and reports to the Board

CURRENT STATUS

President Osob Mohamed, Transition Manager Lawrence Jones, and VP Finance Corbett Gildersleve have met with VCIM to start the process of being their client. We have submitted information related to the SFSS and signing authority.

We need to decide on the amount of funds and their sources to contribute to the investment policy. There is interest from members of the Accessibility Committee to invest in the Accessibility Fund and use the interest gained to fund an Accessibility Bursary. In this case, interest gained would be used directly to fund the bursary, and any left over would be fed back over.

MEDIA AND COMMUNICATION

Upon the approval of the plan by FASC, VP Finance Corbett Gildersleve and Applied Science Rep Harry Preet Singh will set up a meeting with the SFSS Communications Department to discuss a communications plan for our membership. Both the communications plan and the investment plan will then be presented to the Board for approval

OPTIONS

The Investment Policy pools the invested funds with 65% fixed-income (bonds) and 35% equity (Canadian and foreign-owned). If no funds are drawn from the pool by the SFSS, it will go back to the pool to further grow itself. We need to decide a few things:

- 1. How much do we transfer to the investment pool?
- 2. When and by how much do we collect from the pool each year?

Proposed Investment Transfers

Accessibility Fund

Accessibility Advisory Committee is exploring the idea of using the Accessibility Fund to pay for an Accessibility Bursary where they're using a portion of student fees and interest gained on the fund to pay for bursaries to help reduce barriers for students

First Nations Student Fund

Will need to consult with the First Nations Student Association on if they would like to have their funds transferred into the investment policy and how they would like to use the interest gained.

Health and Dental Plan Reserve Fund, Undergraduate Health Plan Fund

Due to the unpredictable nature of the pandemic and our new insurance model, we don't think it would be a good time right now to invest those funds into the policy as we might need all of it for paying back a deficit.

Leftover funds will be used to cover any operational needs without the need to contact VCIM to withdraw money from the investment fund, unless there's an emergency situation that requires additional funding.

Timeline

- Phase 1 (By December 31st, 2020)
 - Restricted Funds transfer
 - This plan will allow funds from Referendum/Board restricted funds to be invested and any interest gain on top of it will be transferred to the general fund or it can go back to the place where it came from.
 - Value: \$2,882,604, ~\$300,000/year from the Space Expansion Fund fees
- Phase 2 (By February 28th, 2021)
 - Unrestricted Surplus transfer
 - We have the limit of \$2.7 million to be invested. The interest gained may be added to the general fund or pool it back to the original investment or future boards might have separate ideas on how to use it.
 - Value: \$2,060,526.75, any annual operating surplus
- Phase 3 (By April 31st, 2021)
 - Accessibility Fund transfer
 - Use the interest to fund an Accessibility Bursary
 - This should be done last as it will take working with our lawyers and consulting with the Accessibility Committee
 - Value: \$353,843.00, ~\$50,000/year in Accessibility Fund fees

Proposed Collection Methods

- 1. We could let the fund pool up until interest gained reaches a set threshold and then collect that interest each year without touching the principle.
- 2. We collect all interest gained each year and only let student fees expand the principle
- 3. We collect only the interest gained minus the amount of annual inflation

Analysis of Collection Methods

- 1. The SFSS would not receive financial benefits from this method for a number of years, but when they do, the financial benefits should be fairly stable and reliable.
 - a. The interest return threshold would need to be determined, e.g. \$300,000/year in interest from the fund
- 2. This would allow the SFSS to immediately benefit, but the only growth from the principle would be from student fees. If these fees are more than inflation, then the principle will grow, if not, then the principle will slowly be devalued due to inflation.
- 3. This would result in less financial benefit for the SFSS, at least initially, but the fund would grow with inflation and not become devalued over time.

Neither plans take into account additional funds that might come in from operational surpluses, which will be highly variable and might not even occur some years. As such, FASC will need to review the performance of the Investment Fund with VCIM and the SFSS's overall financial state.

ADMIN COSTS

VCIM has a tiered fee plan based on the amount of funds invested.

| Amount | VCIM Fee | Custodial Fee | Combined Fee |
|----------------|----------|---------------|--------------|
| First \$1M | 1.00% | 0.14% | 1.14% |
| Next \$1M-\$2M | 0.75% | 0.14% | 0.89% |
| Next \$2M-\$5M | 0.50% | 0.14% | 0.64% |
| \$5M+ | 0.30% | 0.14% | 0.44% |

Therefore, with the proposed investment, we would be charged the lowest rate. This would work out to:

| Admin Costs (VCIM) | |
|------------------------------------|----------------|
| Proposed SFSS Investment Amount | \$5,295,974.55 |
| VCIM Fee | \$23,302.29 |
| Sample ROI | \$137,541.50 |
| Final | \$114,239.21 |

RECOMMENDATION

We recommend the 3rd option as the SFSS can see financial benefit after the first year and the fund grows with inflation. If FASC finds that the investment fund is growing faster than inflation due to student fees and operational surpluses, they could increase the amount of interest collected until it levels off.

Please refer to each department's budget for detailed budgetary notes.

Note 1 SFSS Membership Fees Revenue is the portion of the overall Undergraduate Student Activity Fee that funds the majority of SFSS programs and services. The amount collected per undergraduate student is \$42.74 (or \$21.38 for students enrolled in 3 or fewer credits) calculated at actual for Summer 2020 and Fall 2020, and estimate based on last year for Spring 2021.

This is a net amount after an allowance for bad debts has been deducted.

Note 2 FIC Membership Fees Revenue - Actual for Summer 2020 and Fall 2020, and 75% of last year attendance for Spring 2021 due to covid.

Note 3 The SFSS student health plan 2020/2021 Admin fee is 1% of the Health Plan fee.
