The Board Organizer added that the 2021 plan had expired last year but that the SFSS was still operating under the old plan. In July 2021, consultation had started on the 2021-2026 plan. Overall, the plan used a Justice, Equity, Diversity, and Inclusion framework for a review of all SFSS policies.

Besides guiding principles, the plan also set out strategic priorities alongside indicators of success. This plan also included a focus on Vancouver and Surrey Campuses.
- The Board Organizer clarified that implementation of the plan would be followed by plans of creating comprehensive transparency internally within the framework scope of Council training. A big focus of the plan also included decolonization efforts, particularly constituency group resources & equity focused services as well as sustainability and climate equity.

17. 30 MINUTES Q&A

- One of the member asked what can be done to foster a spirit of collaboration, adding that these actions did not have to be done formally or through an accessibility committee. The member suggested having live captioning in Council sessions to improve accessibility.
- SASU Councillor agreed that accessibility was important and said that Council could look into it.
- One of our Members added that there was currently a big rift between certain Council members and DNA but clarified that DNA had extended invitations for healing the rift.
- One of the Member asked if there was a possibility to compress meetings into 30-minute highlights to be posted on YouTube as they were quite long.
- The Vice-Chair responded to Member stating that minutes were also available.
- The SOCA Executive asked when Council was planning to read the VP Equity and Sustainability's response to the CCBC investigation as requested. The member also asked why the following three motions were blocked from the agenda despite being submitted by the VP Equity prior to the agenda item submission deadline 1. Motion of Investigation of Ethical Breaches and Exec Censure Notions for Abusing Society Resources 2. Motion for Council to Call for a Public Apology Request for Resignation of Film Councillor due to Incitement of Violence of the Student Union Building in the SFSS Council Discord 3. Council Request Apology for Council Breaches of Respectful Communications Policies in Society Zoom Meetings and Council Discord. The member sent the motions in the Zoom chat and asked for them as well as their attachments to be added on the minutes.
- The Vice-Chair explained that these items were pulled from the agenda due to solicitor-client privilege.
- The SOCA Executive asked for the Vice-Chair to explain solicitor-client privilege for Council.
- The Computing Science Councillor explained that the President and the Vice-Chair mapped out what items would be included on the agenda. The

Councillors had a submission deadline for agenda items. Reasons for which an item that was not submitted include solicitor-client privilege which does not mean that the motion was stopped. He explained that any member of Council can attempt to amend a motion onto the agenda which is the Council's democratic will of whether they wish to consider the motion. He added that if the motion needed to be considered, they could have been amended on but that it was Council's decision. He stated that the decision to exclude the items was justified considering the length of the Council meeting and that the Vice-chair and the President should be cut slack for this.

- The Computer Science Councillor explained that if a Councillor wanted to have something considered, they will. He added that there were previous instances of items being not included but then being amended on.
- The SOCA Executive asked the President directly why the three motions mentioned earlier why they were not included on the original agenda. The member added that the person who had submitted the motions was not able to be present at the meeting.
- The Vice-Chair explained that solicitor-client privilege applied to discussion which involved advice being given between a solicitor and a client. He added that as per R-9.1(d) he would not discuss matters bound by solicitor-client privilege.
- The SOCA Executive clarified that this meant that the client, the SFSS, was choosing to not share information that was obtained from their legal counsel.
- One of the Member added that solicitor-client privilege bars the lawyer from sharing information but clients are free to share information. The member raised concerns about the way solicitor-client privilege was being brought up to avoid discussing the topic, but Councillors had the power to share information in the spirit of transparency. They asked what would be done to increase transparency and accountability from Council.
- The VP Finance and Services mentioned that the Student Advocate who worked at the SFSS who was able to talk to Councillors being affected by Council.
- The Student Advocate explained that she primarily helped students who were dealing with academic integrity issues, CAL, students dealing with withdrawals due to extenuating circumstances, and she was currently working on chest-feeding and lactation spaces on campus. She asked Councillor to send constituents to them if they did not know where to send them for help.
- One of the Member asked for clarity about transparency, particularly posting

Council links to meetings which prevent students from participate.

- The President explained that the admin team posts Council meetings on YouTube but agreed that the short notice about the meeting links being posted would be taken up with Communications to ensure that the meetings were accessible.
- One of the Member clarified that the concern was specifically about meeting links, not recordings, as students who were not present at the meetings could not participate in Council Q & A sessions.
- The President replied that the zoom links have been compromised. The President added that once the zoom link was secure, it would be able to be posted publicly.
